After marking each Verbal Reasoning test, find where the test score meets the upwards arrow of the corresponding test, and draw a cross.

You can find out what estimated percentage of candidates would achieve a lower score by reading off the percentile values to the right for each test.

To better spot the trend of how your child is progressing in terms of test scores and percentiles, connect successive crosses with straight lines.

	Test 46	Test 47	Test 48	Test 49	Test 50	Test 51	Test 52	Test 53	Test 54	Test 55	Test 56	Test 57	Test 58	Test 59	Test 60
